A Wrangle in the Weatherford Precinci Corvention over Prohibition-Flery Speeches Made Pro and Con.

A Movement in Dallas County for the Heart of Oak Plank-Mass Meeting of Marion County Democrats.

Weatherford Precincs Convention. pecial to the Gazette.

WEATHERFORD, TEX., May 5 .- Pursuant to call the chairman of the Democrats of Precinct 1, Parker county, a convention was held at the courthouse in this city at 2 o'clock this afternoon for the purpose of selecting delegates to the county convention which convenes in this city on the 12th of this month. The convention was called to order by Chairman C. W. McGhee, who explained that the object of the convention was for the purpose of selecting thirty-seven delegates county convention, and stated the her order of business was to elect a Stevenson placed in nomination the me of Mayor M. W. Buster. Judge J. Hood placed in nomination the name f precinct chairman, C. W. McGehee, ho was then presiding over the meeting. fter some the in discussing this matter less. Baster was elected chairman, and

H. B. Dorsey secretary. It was evident that some feeling existed on both sides with those who took part in the prohipition campaign last year to win the day, the Pros predominating which was shown in the discussion as to who should take the chair, Colonel Buster favoring the amendment and Captain McGehee being against the amendment last year Mr. A. Sterhensonlintroduced the following resolution: Resolved that the question of prohibition having been submitted to a popular

vote of the people and by them rejected, elieve that further agitation of the subject is unwise and impolitic, and we deem t unnecessary to any other expression of Democratic principle, and that our delees to the county convention be and are hereby instructed to vote as a unit in accordance with this resolution.

He spoke for some time advocating its adoption, making reference to letters clamed to have been written by extremists on the anti side, of this city, to parties of the same type throughout the county, instructing them to turn out and select delegates to the county convention who were extreme an ti's and men who would favor making the question of the vote on prohibition fealty to the party. At this point he dwelt for

The ball seemed to be open and speeches were made by a number of those who voted for and against the prohibition smendment, for and against the adoption of the resolution. Speeches were made by Judge A. J. Heod, A. Stevenson, Judge J. T. Harcour, W. R. Vivrett, Judge J. M. Richards, Dr. W. B. Miller, Judge A. T. Watts, Judge J. M. Roach'and others, all ng they were for harmony, but none them showing an inclination to be monious, each one sticking closely to ils views and not yielding one particle to measures which would maintain harmony in the Democratic party. The speakers advocating the adoption of the resolution arguing that its adoption would set to rest the question of prohibition, which is already a dead issue. The speakers opposing its adoption claimed that it was wrong to bring this question up to any shape, that if it was a dead issue, why let it remain so, and not be agitating it here in the convention where it doesn't belong, as this convention was for the sole purpose of electing delegates to the county convention, and not to raise the question of prohibition.

After quite a while calls were made for a vote on the resolution. The debaters with very few exceptions were very free in the indulgence of arguments, threats in the indulgence of arguments, threats and allusions that were not at all complimentary to a convention of intelligent men as the speakers would often refer to men as the speakers would often refer to the opposing sides as your party. Judge Hood suggested that from the complexion of the convention and the rattling of cane and stamping of feet that it was a problbition convention. He finally stated that you have the majority here and can adopt your resolution or whatever you please, but if you insist on this do you suppose I will hereafter be quiet?"

He warned the convention to consider this question well before action; that the best plan was to withdraw the resolution and have peace and harmony. Upon be ing questioned by Colonel Nicholson thus: "Suppose you are in the state convention will you take the same stand that you are now advocating?" the judge remarked that sufficient to the day was the evil thereof, and sat down.

Judge Harcourt then moved that the resolution be tabled. Judge Richards moved to table Judge Harcourt's motion, which was carried.

Judge Harcourt moved to adjourn.

This motion was also tabled. The pro-nibition Democrats were largely in of this city who voted Pro last August nibition Democrats were largely in of this city who voted Pro last August power, and disposed of the motions of approached a friend and informed him he the anti Democrats by tabling their desired to be a delegate to the Fort motions, etc. A vote was then taken on Worth convention. The friend informed the resolution which was adopted by a very large majority. A committee of five were then elected

by acclamation to select delegates to the convention, composed of Judge J. M. Richards, A. Stevenson, Captain C W. McGehee, Judge A. T. Watts and A. F. Starr, who retired to select thirty-seven delegates to the county convention.

The committee reported as the names delegates to the county convention thirty men who voted for the prohibition amendment and seven who voted against it. The report was received, and the delegates as named were elected by acclamation.

The convention then adjourned. THE GAZETTE correspondent inquired of several of those in attendance at the convention as to how they were pleased with the outcome, and most all of them expressed considerable unessiness that the result of the squabble for precedence would result in discord in the Democratic ranks in Parker county throughout the campaign, some of the in his speech before the convention warn-

A report was also made to the sub-committee arranging elaborate decorations, which will appear in the convention hall. To the Editor of the Gazette Some of the more rabid of the Antis are earnestly talking up the heart-of-oak plans to be inserted in the next platform, and some of the most earnest Pros are saying, "Do it if you dare," and in less than thirty days we will have a "Demo-cratic" convention whose object will be to declare fealty to "Jeffersonian" principles, and add one other plank; that is, eliminate liquor from party politics altogether, and invite all men who can sub scribe to it to step aboard. One of the most foolish things imaginable is likely to be done at the convention in the insertion of a liquor plank at all, and the present "bosses" will rue the day they ver did so. Rome was not so big but what Mark Anthony could divide it, neither is the party so big in Texas that it cannot be divided.

Dr. H. Robinson, Wsco, Tex.

DEAR SIR-I have been troubled with catar hal deafness for about twelve or fourteen years and have been treated by the most celebrated aur st of the scuth with but little benefit, and have spent a great deal on all kinds of instruments hoping to find some rollef, but in vain. I had almost given up, when I was in duced to try your "Caccerine," and can truly say it is, in my opinion, the best reinedy for catarrh I have ever seen or tried. My heaving is improving very much, and I hope and believe it will be fully restored. Wish my you much very truly, J. P. M'LENDON, M. D.
